- All people signing the document(s) must be physically present to have their signature notarized.
- Please provide your own witnesses should they be required for your document(s).
- You may be asked to seek legal advice before your documents can be notarized. No one in the library is able to give legal advice, including the Notary.
- The Notary reserves the right to decline service if any of the above guidelines are not met, if there are concerns about the authenticity of the documents, or if the individual(s) signing the documents appear to be unaware of what they are signing or under duress.
